FOOD 4 FUTURE WORLD SUMMIT

MAIN AUDITORIUM

VERTICAL FORUMS

VERTICAL FORUMS

C-LEVEL AGENDAS

TECH SERIES

10:00 - 11:00

Food in the Anthropocene

11:00 - 11:45

Towards zero food impact

11:45 - 12:45

Main challenges in social sustainability

12:45 - 13:30

Local products development towards next generation

13:30 - 14:00

Long vs. short supply chains: pros and cons

14:00 - 15:30

15:30 - 16:30

16:30 - 17:00

Sustainability. Optimize resource efficiency and minimize waste

17:00 - 17:30

Energy decarbonization and food industry

17:30 - 18:00

ENVIRO-SCORE: New systems for food labelling

FOODTECH NATION summit

FOODTECH NATION summit

FOOD FROM THE LAND

Insects: source of proteins and pollinators -the big need for the future-.
Insect proteins

Impact of "protein transition" on "traditional" food sector

SOIL and BIODIVERSITY

IV Food Innovation Forum by EIT FOOD

Targeted Nutrition: Anticipatory Thinking for Food Industries

Dietary guidelines & Policies Against Unhealthy Foods - New Regulations & Others

Personalized nutrition: the "why, what, and who"

LUNCH TIME

BEVERAGES / GASTRONOMY

Sustainability & Beverages

Culinary innovation in new product development

New ingredients in our country

Digital consumer and digital dinner

Why alternative proteins? Feeding the future world

Future proteins, market and consumer

Cell cultured protein

FoodTech Startup Forum

Hibridación y eficiencia energética, descarbonización e H2

Agro-food circular bioeconomy

Sustainable agro-food packaging

CYBERSECURITY and BLOCKCHAIN

Blockchain and agro-food sector

Cyber risk in food supply chain

Cybersecurity: from farm to fork

WED. 16TH JUNE 2021
